The Fire Department could put the Suburban to good use. After a lengthy discussion, it was decided that the Suburban would best serve the town as a Fire Department vehicle since a need exists there for Battalion Chief DiMauro.

#### Citizens' Remarks:

Tito Jackson mentioned the Senior Citizen's letter asking that the OEM vehicle be returned to the OEM Coordinator or sold. He said that Joe lied and said that the Police Chief asked for the OEM vehicle. Tito said that a resident expired because the police needed another oxygen tank. He said that the vehicle pulled the trailer that would bring the generator to people's homes. He said a resident died because the OEM vehicle was not there and a similar incident occurred on another day when only one officer was available. Removing the vehicle from OEM causes injury and death.

Nick Zampetti praised events occurring on Main Street next Saturday. The town needs more senior housing for our aging community. Property maintenance needs to look at properties on West Fort Lee Road and Leonia Avenue, Fort Lee Road and Larch Avenue, and Linwood and Queen Anne Road. He also asked about the Hess property. There are many vehicles on the property, so it should be revalued.

Michael Connors applauded the Mayor and Council for the \$500,000 savings on the budget because taxes are very high and need to be reduced. He suggested looking into Green Acres funding. He said that the new website is awesome, and the town should videotape the meetings and put them on the website. He also suggested having students shovel snow for seniors because students need service hours.
