**RE: Proposed Change in Use
114 E. Main Street
Block 39 Lot 3
Borough of Bogota
Bergen County, New Jersey**

Dear Board Members:

Our office has reviewed the application and architectural plan for the proposed residential apartment on the second floor of an existing two-story office building. The subject property is located within the B-1 Zoning District where the existing office use is permitted, and the proposed residential use on the second floor is not permitted. The existing lot is non-conforming the bulk standards for the B-1 zone and the existing building is conforming to the bulk regulations of the B-1 Zone. The site is bound by Second Place to the east, East Main Street to the North, commercial properties to the west, and residential properties to the south; and is currently improved with a two-story frame building, macadam parking lot, concrete steps, and paver. No site improvements are proposed as part of this application and no waivers have been requested. We offer a more in-depth breakdown of the B-1 Zoning regulations below, along with comments based on our review of the material submitted.
